COLLEGE OF COMPUTER STUDIES
BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY
ITEP414: SYSTEM ADMINISTRATION AND MAINTENANCE

Task 1. (Capstone Project Group). Perform the following functions.

1. Create a storyboard for your capstone project. You may use any application, such as PowerPoint, Figma, etc.
2. Create an explanation of the different functions and modules of your projects. (Like a User's Manual)
3. Save the file in PDF.

Reminders:

- *Submit the printed output on or before September 12, 2023 (Thursday).*
- *Strictly follow the instructions!*

Assignment 1. (Individual) Perform the following tasks.

1. To identify your basic skills in system administration and maintenance, your task is to evaluate and assess any of the following applications (Facebook, Messenger, Instagram, X, TikTok) based on the characteristics included in the ISO25010 System and Software Quality Standards:
   a) Functional Suitability
   b) Performance Efficiency
   c) Compatibility
   d) Usability
   e) Reliability
   f) Security
   g) Maintainability
   h) Portability
2. Make a 300-word conclusion on the result of the evaluation and assessment.

Reminders:

- *Please always practice the ethics of scholarship. (**Do not copy and paste, and please do not use AI**)*
- *Write your answers directly to the point and as effectively as possible.*
- *Discuss your answers based on your assessment, evaluation, analysis, and interpretation.*
- *Submit the printed output on or before September 12, 2023 (Thursday).*
- *Strictly follow the instructions!*
